**DETAILED ACTION**

***Allowable Subject Matter***

Claims 1,2,4,5,7,8,10,15-18 and 21-38 are allowed.

The following is an examiner's statement of reasons for allowance:

This application has been reviewed by the examiner and meets all formal and substantive (i.e., statutory) requirements and the language of the claims is enabled by, and finds adequate descriptive support in the application disclosure as originally filed. The primary reason for the allowance of the claims is the presence of limitations in the independent claim(s) which are not found in the prior art references. Hence the prior art fails to disclose and/or make a system of binding sheets into a bound text body comprising: a multi-function sheet binder configured to heat a preformed solid hot melt adhesive to a melting temperature by pressing the melted adhesive into a spine of a text body and folding down edges of the melted adhesive into contact with the text body in combination with an adhesive cooler comprising a heat sink with multiple heat fins.

Further, a terminal disclaimer in compliance with 37 CFR 1.321(c) was timely filed to overcome an actual/provisional rejection based on a nonstatutory double patenting ground since the conflicting application/patent was shown to be commonly owned with this application. See 37 CFR 1.130(b).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
